ACCESSORIES CATALOGUE

DAIKIN DISTRIBUTION CENTRES

Daikin Distribution Centres provide a convenient location to pick up everything our trade customers need to do the job right, from air conditioners, accessories, spare parts to a range of consumables. With 9 trade centres now open across NSW, QLD and VIC, Daikin Distribution Centres continue to expand its product range and services offered to the market.

WHAT'S NEW!

M10 STRUT ACCESSORIES
Additional range of M10 strut fittings for complete strut installations, including Slotted Channel and Threaded Rod
See ACCESSORIES & CONSUMABLES, page 7

FIX-IT FOOT CONDENSER MOUNTINGS
Condenser mount and vibration dampening, all in one easy-to-install package
See ACCESSORIES & CONSUMABLES, page 9

ASPEN CONDENSATE PUMPS
Additional condensate pumps feature whisper quiet operation
See ACCESSORIES & CONSUMABLES, page 16

RETURN AIR BOX
Additional RAB models for added installation convenience
See SHEETMETAL & FITTINGS, page 27

ACCESSORIES & CONSUMABLES

Pre-insulated Pair Coil

AirFX Pair Coils are designed to deliver superior performance and quality by utilising chemically cross-linked foam polyethylene insulation attached with a flat embossed polyethylene surface film.

- Features:
- AS/NZS 1571 compliant
 - Applicable to R410A & R32 refrigerants
 - High quality annealed copper
 - 20 metre & 5 metre pre-insulated coils
 - Suitable for residential use

THERMAL INSULATION PROPERTIES	
Density	35 kg/m³
Tensile Strength	2.45 N/cm²
Thermal Conductivity	0.04 W/m.K
Moisture Permeability Coefficient	≥10000μ
Water Absorptive Capacity	<0.01 g/100cm²
Thickness Shrinkage at 120±5°C	3%
Heat-Resistant Range	-40°C to 120°C

COPPER PROPERTIES	
Temper	0 or 1/2H
Chemical Composition	Cu: 99.9%
	P: 0.015-0.04%
Tensile Strength	205 MPa (min)

1/2H temper applies to 3/4" Copper
Cu - Copper, P - Phosphorus

20m Pre-insulated Pair Coil

Product Code	Copper Pipe (outer diameter x wall thickness)	Insulation Outer Diameter (mm)	Insulation Thickness (mm)	Coil Length (m)	Trade Price (Ex. GST)
AFX-0609-20	1/4" (6.35mm x 0.8mm)	24	8	20	POA

Fire Rated Pair Coil

Fire Rated Pair Coils feature BCA compliant fire-retardant insulation suitable for use in commercial applications. Insulation profiles are available in 13mm or 19mm and are ideal for condensation prevention in high humidity areas.

- Features:
- AS/NZS 1571 Compliant
 - Applicable to R410A & R32 refrigerants
 - “Green Building” compliant Nitrile-rubber foam
 - Easy installation. No glue, tape or messy powder
 - 19mm insulation compliant to AS/NZS 4859.1 (>R1.0)
 - Meets the requirements of specification C1.10-7 “Fire Hazard Properties” (BCA Vol 1) and tested in accordance to AS/NZS 1530.3-1999

INSULATION PROPERTIES	
Density	45-70kg/m³
Thermal Conductivity	0.034 W/m.K
Water Absorptive Capacity	0.0029 g/100cm²
Vapour Barrier	≥10,000μ
Heat-Resistant Range	-200°C to 116°C
Mildew Resistance	No fungal growth

COPPER PROPERTIES	
Temper	0
Chemical Composition	Cu: 99.9%

Cu - Copper

13mm Fire Rated Pair Coil

Product Code	Copper Pipe (outside diameter x wall thickness)	Insulation Outer Diameter (mm)	Insulation Thickness (mm)	Coil Length (m)	R-Values	Trade Price (Ex. GST)

Daikin Header Pack

The Daikin Header Pack is a light weight, compact, centralised copper pipe header for connection to VRV/RA indoor units in VRV Heat Pump type systems (VRV H, VRV S etc..). Hard drawn / pair coil copper is connected upstream of the header pack while downstream connections utilise flared copper pair coil* serving up to six indoor units. This intelligent design allows for neater installation layouts, no downstream brazing for reduced labour cost and quicker installation.

Five header pack sizes are available with connectability of up to 6 indoor units at 420 total indoor unit capacity index.

Product Code	Piping Connections (Liquid/Gas, mm)		Dimensions^ (HxWxD, mm)	Total Indoor Unit Capacity Index	Trade Price (Ex. GST)
	Outdoor Side:	Indoor Side:			
BHF6RHP6Z	Flared (Ø9.5/Ø15.9) x 1	Flared (Ø6.4/Ø12.7) x 3 (Ø9.5/Ø15.9) x 1	135 x 559 x 143	< 150	POA
BHF6ARHP6Z	Flared (Ø9.5/Ø15.9) x 1	Flared (Ø6.4/Ø12.7) x 4 (Ø9.5/Ø15.9) x 2	135 x 623 x 143	< 150	POA
BHF8RHP6Z	Brazed (Ø9.5/Ø19.1) x 1	Flared (Ø9.5/Ø15.9) x 3 (Ø6.4/Ø12.7) x 3	135 x 623 x 143	150 ≤ X < 200	POA
BHF10RHP6Z	Brazed (Ø9.5/Ø22.2) x 1	Flared (Ø9.5/Ø15.9) x 3 (Ø6.4/Ø12.7) x 3	135 x 623 x 143	200 ≤ X < 290	POA
BHF16RHP6Z	Brazed (Ø12.7/Ø28.6) x 1	Flared (Ø9.5/Ø15.9) x 3 (Ø6.4/Ø12.7) x 3	135 x 623 x 143	290 ≤ X < 420	POA

*Fire rated pair coil required on applications apart from Class 1 Buildings
^Body dimensions, does not include the extruding copper pipes

Connection Example

*Pair Coil to Header Pack can be used when using BHF6(A)RHP6Z

- Notes:
1. For larger capacity VRV outdoor units, more than one Header Pack can be utilised in a system
 2. Header Pack is not compatible with indoor units that have >Ø15.9mm pipe size
 3. Reducing flare nut can be utilised for connecting to a smaller pipe size i.e. Ø15.9→12.7mm
 4. Max piping length between header pack & indoor unit is 40m, all other piping rules must follow as per the VRV outdoor unit
 5. Refnets must not be placed downstream of header pack
 6. Branch provider units are connectable downstream of header pack
 7. Daikin VRVXpress software supports header pack selection, please use this software to ensure correct system creation

Condenser Cages

Designed for a quick and easy installation, providing maximum strength and security for Daikin Split, Ducted, SkyAir and VRV condensers.

- Features
- Flat packed for easy transportation
 - Designed for quick and easy on-site installation
 - High strength - hot dipped galvanised, heavy duty 40mm angle iron and 25mm steel mesh
 - Can be bolted to a wall, or fastened onto a concrete pad
 - Front panel can be padlocked for added security

Product Code	Dimensions (HxWxD) (mm)	Trade Price (Ex. GST)
ACG9	900 x 1000 x 600	\$1,509.50
ACG10	1000 x 1200 x 600	\$1,624.10
ACG12	1200 x 1200 x 600	\$1,700.50

Pipe Flashing

Product Code	Dimensions (HxWxD) (mm)	Trade Price (Ex. GST)
SPFRT1	No. 1 Black Springseal, 0-55mm	\$10.30
SPFRT2	No. 2 Black Springseal, 3-100mm	\$18.30
SPFRT3	No. 3 Black Springseal, 80-175mm	\$28.00
SPFRTMINI	Mini Black Springseal, 0-35mm	\$8.30

Aeris HVAC&R Cleaning Products

The Aeris Environmental cleaning and protection packs provide the ultimate cleaning and maintenance solution for a wide variety of HVAC&R applications. Unlike traditional alkaline cleaners, Aeris lab-formulated multi-enzyme solution boasts superior cleaning power and longer-lasting protection. Three exclusive Daikin value packs are offered, each product is carefully selected for optimal indoor unit, outdoor unit and refrigeration cleaning.

Aeris Active – Virucidal Disinfectant

- 3-in-1 Broad spectrum hard surface disinfectant targets mould, mildew and bacteria
- Highly effective virucide provides superior virus elimination and protection on all hard surfaces
- Up to 7 days residual antibacterial protection

Product Code	Description	Trade Price (Ex. GST)
AG-AA-750	Aeris Active 750ml	\$40.20
AG-AA-5	Aeris Active 5L	\$263.30

Indoor Unit Cleaning and Protection Pack

- Clean and treat up to 8 split indoor units*
- Multi-Enzymatic system removes biofilm, fungi and other odour causing bacteria
- Residual treatment protection for up to 12 months

Pack Items	Description	Quantity	Trade Price (Ex. GST)
AG-ECC-200	Enzymatic Coil Cleaner	200mL	\$103.50
AG-CT-A	Bioactive Coil Treatment	200g	\$72.70
AG-PT-SLIM	Pan Tablet Slimline	10 units	\$177.00

PAG-DG-HPD

Outdoor Unit Corrosion Protection Pack

- Clean and treat up to 14 split outdoor units*
- Removes organic and inorganic debris buildup
- Protection against corrosion with excess of +30,000 hours of salt resistance (NATA accredited lab)

Pack Items	Description	Quantity	Trade Price (Ex. GST)
AG-OCC-1	Coil & Surface Cleaner	1L	\$141.50
AG-CPC-A	Corrosion Protection Clear	350g	\$121.30

PAG-DG-CPP

Refrigeration Cleaning & Protection Pack

- Clean and treat up to 10 refrigeration units*
- Easy spray-on, wipe-off design for single step clean and sanitise solution
- Residual treatment protects up to 12 months against microbial growth and contamination
- Prolong asset and equipment life

Pack Items	Description	Quantity	Trade Price (Ex. GST)
AG-SCS-1R	Surface Cleaner Spray	1L	\$40.20
AG-ST-A	Bioactive Surface Treatment	400g	\$76.70
AG-PT-Small	Pan Tablet Small	5 units	\$172.80

PAG-DG-RCP

*Varies according to system type and capacity size

Other Available Items

Daikin also offers an extensive range of air conditioning care products by Aeris Environmental. These products are available for individual purchase, allowing flexibility to suit any care and maintenance application.

Item	Product Code	Description	Trade Price (Ex. GST)

Refer to page 27 for matching side entry linear box
Refer to page 49 for performance data

Round Diffuser

PRODUCT INFO	
Type	Round diffuser
Function	Supply air
Mount	Ceiling
Colour	Non glare mottled white finish
Material	ABS Polymer
Design	Snap down fixing clip Dual spring arrangement Removable core Variable air flow Turn adjustment Textured finish

Easy Airflow Adjustment

Simply turn the face to allow more or less air.

Fast Installation

The clips automatically snap the diffuser in place while the dual springs arrangement provides a secure fit.

Round Diffuser

Product Code	Nominal Neck		Face Length	Cut Out Length	Trade Price

Multi Directional Grille

PRODUCT INFO	
Type	Multi directional grille
Function	Supply air
Mount	Ceiling
Colour	Non glare mottled white finish
Material	ABS Polymer
Design	Toggle clips
	4 Loose biscuits
	Multi directional
	Adjustable blades
	Textured finish
Snap fit to reducing neck	

Product Code	Nominal Neck		Trade Price
	(mm)	(inches)	(Ex. GST)
MF1212	300 x 300	12 x 12	\$24.30

Airflow Patterns

Reducing Neck c/w Damper

PRODUCT INFO	
Type	Reducing neck for multi directional grille
Colour	Black
Material	ABS Polymer
Design	Butterfly damper at rear

Product Code	Spigot Size (mm)	Neck Length (mm)	Neck Length (inches)	Trade Price (Ex. GST)
MFRN12128BFD	200	300 x 300	12 x 12	\$12.20
MFRN121210BFD	250	300 x 300	12 x 12	\$12.20
MFRN121212BFD	300	300 x 300	12 x 12	\$12.20

Convenient and Easy
The loose biscuit design conveniently turns the diffuser to a multi directional outlet while the toggles clips makes installation easy. The blades in each biscuit can also be adjusted to allow for better control of the airflow.

The polymer reducing neck features a butterfly damper at the rear to provide greater airflow control.

The reducing neck snap fit feature and side tabs for connecting the duct makes fitting convenient and easy.

Hinged Eggcrate Grille with Filter

Hinged Eggcrate Grille with Electrostatic Filter (VIC only)

Product Code	Nominal Neck		Trade Price
	(mm)	(inches)	(Ex. GST)
EFHERAG2016	500 x 400	20 x 16	\$104.70
EFHERAG2416	600 x 400	24 x 16	\$107.70
EFHERAG3016	750 x 400	30 x 16	\$122.40
EFHERAG3616	900 x 400	36 x 16	\$126.70
EFHERAG4016	1000 x 400	40 x 16	\$179.80
EFHERAG4816	1200 x 400	48 x 16	\$187.00

Note: These Grilles have the same features as the 'Hinged Eggcrate Grille with Filter' except are hinged on the long side and feature an electrostatic filter media.

Convenient and Secure
The hinged core design prevents the core from falling out when opening and makes changing a filter easy.

Keeps System Clean
The filter helps to keep the air distribution system clean.

Fast Filter Change
The filter guide makes filter replacement easy.

Removable Core Bar Grille

PRODUCT INFO	
Type	Removable core bar grille
Function	Supply air
Mount	Wall
Colour	White Powder Coated
Material	Aluminium
Design	Fixed blades
	0 degree deflection
	12.5mm pitch
	3.0mm blade thickness

Product Code	Nominal Neck (mm)	(inches)	Trade Price (Ex. GST)
RCBG146	350 x 150	14 x 6	\$38.90
RCBG164	400 x 100	16 x 4	\$49.60
RCBG166	400 x 150	16 x 6	\$45.60
RCBG244	600 x 100	24 x 4	\$68.20
RCBG246	600 x 150	24 x 6	\$60.90

Refer to page 51 for performance data

Floor Grille

PRODUCT INFO	
Type	Floor grille
Function	Supply or return air
Mount	Floor
Colour	Natural anodised
Material	Aluminium
Design	9.1mm blade spacing
	Fixed core

Product Code	Nominal Neck (mm)	(inches)	Face Length (mm)	Trade Price (Ex. GST)
FG124N	300 x 100	12 x 4	352 x 160	\$56.20
FG126N	300 x 150	12 x 6	352 x 210	\$92.40
FG146N	350 x 150	14 x 6	402 x 210	\$86.70
FG166N	400 x 150	16 x 6	452 x 210	\$112.20
HDFG2416N	600 x 400	24 x 16	652 x 460	\$279.20
HDFG3016N	750 x 400	30 x 16	802 x 460	\$348.90
HDFG3616N	900 x 400	36 x 16	952 x 460	\$418.50

Product code with 'HDFG' prefix refers to heavy duty floor grille

Refer to page 51 for performance data

Easy and Convenient

The removable core can be easily pulled out and snap back in.

Schots Elite Vents

RCDDR248	600 x 200	24 x 8	\$83.80

Refer to page 52 for performance data

Multi Direction Airflow Adjustment
Each horizontal and vertical blade can be adjusted individually which gives better control of the airflow.

Dual Purpose
The blades can also function as a damper to limit the volume of airflow.

Easy and Convenient
The removable core can be easily pulled out and snap back in.

Internally Insulated
Combination Fittings

Australian made polyethylene based combination fittings with full internal insulation for all your airflow distribution needs. Rotationally moulded with UV stabilised “Alkatuff” polyethylene, our combination fittings are robust in construction, deliver superior performance in high roof space temperatures, and are convenient for storage and transportation.

- Features
- 100% internal insulation to cover entire fitting including the duct take-offs.
 - Stepped take-offs offer multiple combinations to suit varied flexible duct connections.
 - Tabs all round the duct take off to ensure a secure flexible duct connection.
 - 20 year product warranty.

Branch Take Off Fitting

ELECTRICAL ACCESSORIES

Motorised Zone Damper

PRODUCT INFO	
Type	Motorised Zone Damper
Function	Airflow control
Mount	Connect with duct
Options	240V Red Housing 24V Yellow Housing
Material	Galvanised sheet metal casing and blades
Sheet Metal Gauge	Thickness 0.5mm
Design	3.5NM Torque
	Sealed joints (No rivets, no spot welds)
	Insulated casing
	Extra blade support
	Port connection integrated into board (24V)
	Dual earth cable option (240V)

24 Volts

Product Code	Diameter (mm)	Diameter (inches)	Trade Price (Ex. GST)
QZD624V	150	6	\$78.20
QZD824V	200	8	\$79.20
QZD1024V	250	10	\$82.20
QZD1224V	300	12	\$98.30
QZD1424V	350	14	\$109.50
QZD1624V	400	16	\$128.60
QZD1824V	450	18	\$148.40

240 Volts

Product Code	Diameter (mm)	Diameter (inches)	Trade Price (Ex. GST)
QZD6240V	150	6	\$84.50
QZD8240V	200	8	\$85.60
QZD10240V	250	10	\$89.10

QZD14240V	350	14	\$114.80
QZD16240V	400	16	\$133.80
QZD18240V	450	18	\$153.30

Integrated Port Connection
The port connection is directly embedded in the circuit board. The elimination of wires reduces the chance of product malfunction.

Insulated Case
Air flowing through the damper is protected by 5mm insulation.

Dual Earth Wire Option
The earth wire could be either connected to a 4 core or via the external wire extruding from the housing.

No Air Leakages
The precise production process forms sealed joints and eliminates air leakages.

Extra Blade Support
The added horizontal support increases the strength of the damper blade.

Transformer

Product Code	Description	Trade Price (Ex. GST)
Transformer	Input: AC230-240V 50H Output: AC24V 2000mA	\$56.60

10m RJ12 Modular Connector

Product Code	Length	Design	Trade Price (Ex. GST)
10 MTR Cable	10m	RJ12	\$15.40

Air Conditioning Cable

WHITE (signal) separated from RED (live) to prevent signal interference.

1, 2, 3 Interconnect Cable - Flat

Product Code	Description	Trade Price (Ex. GST)
AC7504-100BLU	3C+E 1.5mm2 Flat AC Blue 100m	POA
AC76704-100BLU	3C+E 2.5mm2 Flat AC Blue 100m	POA

These cables are compliant to: AS/NZS 1125, AS/NZS 3808, AS/NZS 5000.2 & are SAA Certified.

Communication Cable

F1, F2 (DIII-Net) & P1, P2 Cable - Circular

Product Code	Description	Trade Price (Ex. GST)
EAS7401P-100	1 Pair (Shielded) 0.88mm2 Black 100m	POA

This cable is compliant to: AS/NZS 1125 & AS/NZS 3808.

4 Zone Touch Pad

Product Code	Description	Trade Price (Ex. GST)
4-Zone Touchpad	ON/OFF 4 Zone Control Pad	\$70.20

Note: 4 Zone Touch Pad does not interface with the ducted air conditioning system

Power Cable

TPS - Flat

Product Code	Description	Trade Price (Ex. GST)
SRF2015V-100W	2C 1.5mm2 Flat Twin TPS 100m	POA
SRF2025V-100W	2C 2.5mm2 Flat Twin TPS 100m	POA

Miniature Circuit Breaker (MCB)

PRODUCT INFO	
Type	NHP MOD6 Series - MCB
Function	Overload protection
Mount	DIN rail
Curve Type	C (Trip Time: 5-10 x I _N)
Short Circuit Rating	6kA
Compliance	AS/NZS 60898
Application	Domestic and commercial installation
Design	Features a sealable/lockable handle which is padlockable in 'Off' position. Compact form factor allows for easy installation in load centres and panelboards.

1 Pole

Product Code	Rated Current (A @30°C)	Rated Voltage (V AC)	Trade Price (Ex. GST)

MOD6350	50	415	\$54.70
MOD6363	63	415	\$54.70

Residual Current Circuit Breaker with Overcurrent Protection (RCBO)

PRODUCT INFO	
Type	NHP MOD6 Series - RCBO
Function	Residual Current + Overcurrent Protection
Mount	DIN rail
Sensitivity Type	A
Short Circuit Rating	6kA
Compliance	AS/NZS 61009.1
Application	Domestic and commercial installation
Design	Double screw compact design combines with insulated busbar comb for easy installation

1 Pole + Switched Neutral

Product Code	Sensitivity Type	Rated Current (A @30°C)	Rated Fault Current (mA)	Trade Price (Ex. GST)
M6RCBD0630CAN	A	6	30	\$65.40
M6RCBD1030CAN	A	10	30	\$65.40
M6RCBD1630CAN	A	16	30	\$65.40
M6RCBD2030CAN	A	20	30	\$65.40
M6RCBD2530CAN	A	25	30	\$65.40
M6RCBD3230CAN	A	32	30	\$65.40

Residual Current Sensitivity Table

RCD Type	Symbols	Sensitivity to Residual Current	Application
AC		Designed to operate when residual sinusoidal AC are detected	Ideal for circuits containing AC operated equipment
A		Designed to operate when both residual sinusoidal AC and residual pulsating DC are detected	Ideal for circuits containing both AC and DC operated equipment

Residual Current Device (RCD)

PRODUCT INFO	
Type	NHP MOD6 Series - RCD
Function	Residual Current Protection
Mount	DIN rail
Sensitivity Type	A or AC
Short Circuit Rating	6kA
Compliance	AS/NZS 61008 & 61009
Application	Domestic and commercial installation
Design	Fast connection to pin/fork busbar comb, suits pole covers and loadcentres

1 Pole + Neutral

Product Code	Sensitivity Type	Rated Current (A @30°C)	Rated Fault Current (mA)	Trade Price (Ex. GST)
MOD6RCCB24030A	A	40	30	\$101.30
MOD6RCCB26330A	A	63	30	\$101.30
MOD6RCCB24030	AC	40	30	\$93.00
MOD6RCCB26330	AC	63	30	\$101.30

3 Pole + Neutral

Product Code	Sensitivity Type	Rated Current (A @30°C)	Rated Fault Current (mA)	Trade Price (Ex. GST)
MOD6RCCB44030A	A	40	30	\$247.30
MOD6RCCB46330A	A	63	30	\$247.30
MOD6RCCB44030	AC	40	30	\$84.80
MOD6RCCB46330	AC	63	30	\$126.00

CONTROLLERS

Airzone VAF Zoning System

The Airzone VAF Zoning System is a variable airflow zoning system compatible with Daikin's range of residential and commercial range of ducted indoor units. It offers superior comfort over traditional On/Off zoning by providing individual temperature control in each zone and improved energy savings via it's intelligent fan speed control.

Each solution consists of Airzone touch controllers, 4-step linear dampers (12V) and a VAF control PCB with Daikin P1, P2 communication module*.

*A BRC1E63 (Nav Ease) will also be required for backup and servicing

Key Features

Touch Controllers

Featuring premium aesthetic design with intuitive touch screen interfaces for ease of use. Available in 3 models: Blueface, Think and Lite.

Individual Temperature Control

The 4-step linear dampers precisely regulate airflow into each zone ensuring optimal temperatures for all occupants in the house hold at anytime.

Q-Adapt Algorithm

The controller automatically selects the appropriate fan speed (L/M/H) depending on number of zones opened and their calling demand, resulting in reduced running costs.

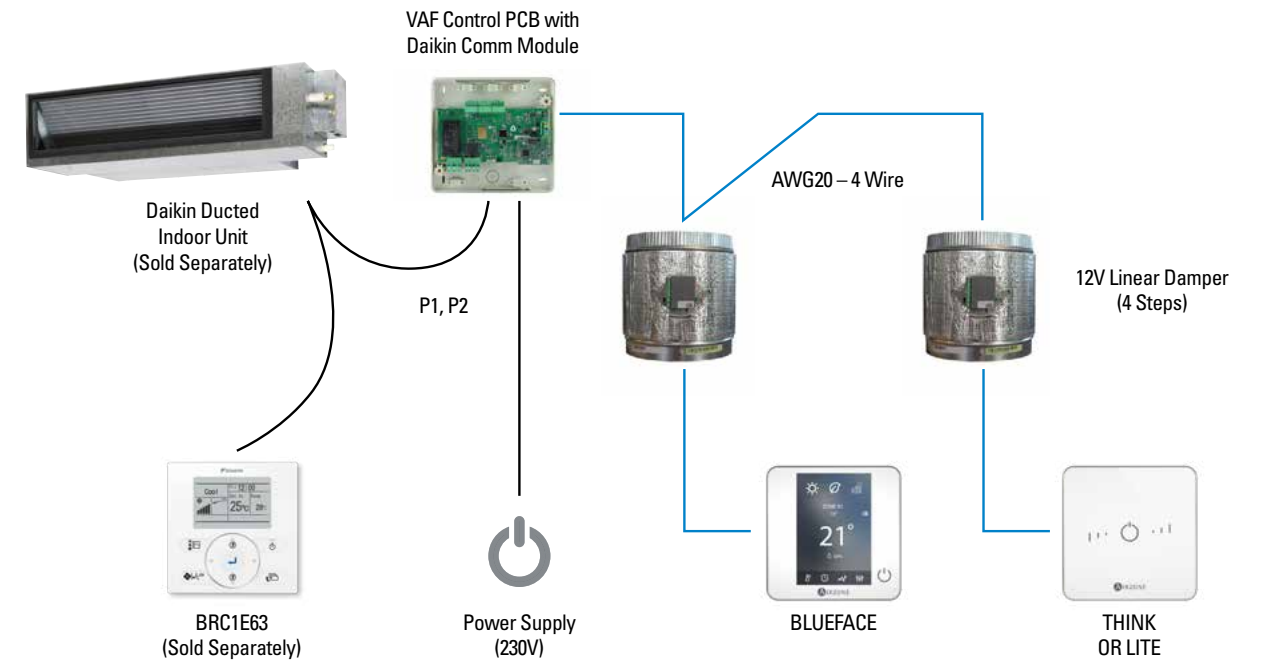

Scalable Design

Up to 10 zones can be controlled via a single VAF system and coupled with a simple control architecture this makes scalability and installation convenient.

BLUEFACE		THINK	LITE
Main Controller	Zone Controller		Zone Controller
Metal & Glass Build			
White Finish			
92(H) x 92(W) x 15.85(D) mm			
3.5" Colour Screen	2.7" E-Ink Screen		LED Feedback
Capacitive Touch	Capacitive Buttons		Capacitive Buttons
Wired			
Full Temperature, Fan Speed and	Operation Mode Control		Temperature Control up to $\pm 3^{\circ}\text{C}$
Temperature and Humidity Sensor			
Zone On/Off			
User Mode (Eco, Vacation, Stop, Comfort, Unoccupied and Night Time)			-
Weekly Timer	-		-
Configuration Settings	-		-

Control Architecture

Notes:

1. Each VAF system requires at least one Blueface controller (main controller)
2. Each zone requires one Airzone controller
3. All Airzone controllers and dampers are powered by the VAF Control PCB
4. If temperature sensing from the controller is not desired, a remote temperature sensor (AZVAF10KPROBE) can be utilised instead
5. Additional 12V power supply (HDR-15-12) is required when more than 6 zones are connected
6. All cables are field supply

Item		Product Code	Description	Trade Price (Ex. GST)
1		AZVAFR3DAI	AZ VAF Control PCB with Daikin Module	\$540.00
2		AZVAFBLUEFACECB	AZ VAF Wired Blueface Controller - White	\$366.00

DeburringTool (Crankshaft Motion)

Item No.		Description	Trade Price (Ex. GST)
TA520CK		Pipe size: 1/4~3/4 Single-edged blade	POA

DeburringTool

Item No.		Description	Trade Price (Ex. GST)
TA520AB			POA

Torque Wrench

Item No.		Description	Trade Price (Ex. GST)
TA771B		Flare nut size: 1/4 Calibre: 17mm Tightening torque: 17.2N/m	POA
TA771H		Flare nut size: 3/8 Calibre: 22mm Tightening torque: 39.9N/m	POA
TA771L-2		Flare nut size: 1/2 Calibre: 26mm Tightening torque: 53.9N/m Refrigerants (R410A) use only	POA
TA771R-2		Flare nut size: 5/8 Calibre: 29mm Tightening torque: 75.0N/m Refrigerants (R410A) use only	POA

Step Quick Action Bender

Item No.		Description	Trade Price (Ex. GST)
TA540G-3		Pipe size: 3/8 Bend radius: 23.8 DIM.: L350 Colour: Red	POA
TA540G-4		Pipe size: 1/2 Bend radius: 38.0 DIM.: L470 Colour: Yellow	POA
TA540G-5		Pipe size: 5/8 Bend radius: 57.2 DIM.: L740 Colour: Blue	POA
TA540G-6		Pipe size: 3/4 Bend radius: 76.2 DIM.: L806 Colour: Green	POA

Expander Kit

Item No.		Description	Trade Price (Ex. GST)
TA525		Contents: Expander unit, Head adapter (SIZE: 3/8, 1/2, 5/8, 3/4, 1), Deburring tool	POA

Hydraulic Expander Kit

Item No.		Description	Trade Price (Ex. GST)
TA525PM		Pipe size: 3/8~2 1/8 Head adapter: 3/8, 1/2, 5/8, 3/4, 1	POA

Flare Nut Wrench Set

Item No.		Description	Trade Price (Ex. GST)
TA733TA		Contents: 17 × 22mm (1/4 × 3/8) 24 × 27mm (1/2 × 5/8) 32 × 36mm (3/4 × 3/4)	POA

Spring Bender

Item No.		Description	Trade Price (Ex. GST)
TA510L-2		Pipe size: 1/4 (6.35mm) Use only for coated pipe Length: 2,600mm	POA
TA510L-3		Pipe size: 3/8 (9.35mm) Use only for coated pipe Length: 2,600mm	POA
TA510L-4		Pipe size: 1/2 (12.70mm) Use only for coated pipe Length: 2,600mm	POA
TA510L-5		Pipe size: 5/8 (15.88mm) Use only for coated pipe Length: 2,600mm	POA
TA510L-6		Pipe size: 3/4 (19.05mm) Use only for coated pipe Length: 2,600mm	POA

Bending Machine Guide

Item No.		Description	Trade Price (Ex. GST)
TA515-78S		Pipe size: 7/8, 1 Two-side	POA
TA515-103S		Pipe size: 1 1/8, 1 3/8 Two-side	POA
TA515-204S		Pipe size: 1 1/4, 1 1/2 Two-side	POA
TA515-305S		Pipe size: 1 5/8 one-side	POA
TA515-306S		Pipe size: 1 3/4 one-side	POA

Supporting Stand

Item No.		Description	Trade Price (Ex. GST)
TA515PY		Pipe size: 9~100	POA

Manual Bending Machine

Item No.		Description	Trade Price (Ex. GST)
TA515		Pipe size: 1/2~1 3/4 Bend angle: Max.180° Bend radius: R=4D, R=3D Japan MLIT applicable standard	POA

Bending Machine Formers

Item No.	Description	Trade Price (Ex. GST)
TA515-7K	Pipe size: 7/8 (22.23) Bend radius: 88.8 CE (90°) 69.7 4D	POA
TA515-8K	Pipe size: 1 (25.40) Bend radius: 101.6 CE (90°) 79.75 4D	POA
TA515-9K	Pipe size: 1 1/8 (28.58) Bend radius: 114.3 CE (90°) 89.72 4D	POA
TA515-10K	Pipe size: 1 1/4 (31.75) Bend radius: 127 CE (90°) 99.69 4D	POA
TA515-11K	Pipe size: 1 3/8 (34.93) Bend radius: 139.7 CE (90°) 109.66 4D	POA
TA515-12K	Pipe size: 1 1/2 (38.10) Bend radius: 152.4 CE (90°) 119.63 4D	POA
TA515-13K	Pipe size: 1 5/8 (41.28) Bend radius: 165.1 CE (90°) 129.6 4D	POA
TA515-14K	Pipe size: 1 3/4 (44.45) Bend radius: 177.8 CE (90°) 139.57 4D	POA
TA515-15K	Pipe size: 2 (50.80) Bend radius: 200 CE (90°) 156.99 4D	POA
TA515-16K	Pipe size: 2 1/8 (53.98) Bend radius: 216 CE (90°) 169.56 4D	POA

Pressure Gauges

Ball Valve Manifold Kit

Item No.	Description	Trade Price (Ex. GST)
TA122GPK-1	68 Gauge with sight glass R410A, R32 Refrigerant saturation temperature scale Zero adjusting function Ball valve type Connecting port size: 5/16 flare	POA

Digital Ball Valve Manifold Kit

Item No.	Description	Trade Price (Ex. GST)
TA123DZPK-1	78 Digital compound gauge 3-way ball valve type Connecting port size: 5/16 flare Backlit display	POA

Ball Valve Manifold Kit (Compact Size)

Item No.	Description	Trade Price (Ex. GST)
TA122MBPK	50 Gauge Ball valve type R410A, R32 Refrigerant saturation temperature scale Zero adjusting function Connecting port size: 5/16 flare	POA

Ball Valve Manifold Kit

Item No.	Description	Trade Price (Ex. GST)
TA124WPK	80 Gauge with sight glass R404A, R407C, R507A, R134a Refrigerant saturation temperature scale Zero adjusting function Connecting port size: 1/4 flare	POA
TA120KPK-1	68 Gauge with sight glass R22, R12, R502 Refrigerant saturation temperature scale Zero adjusting function Connecting port size: 1/4 flare	POA

Charging Valve (Refrigerants: R32, R410A)

Item No.	Description	Trade Price (Ex. GST)
TA166ZA	Refrigerants: R410A, R32 Connecting port size: 5/16 male flare x 5/16 female flare DIM.: L56mm	POA

Charging Valve (Refrigerants: R404A, R407C)

Item No.	Description	Trade Price (Ex. GST)
TA166YA	Refrigerants: R404A, R407C, R507A, R134a Connecting port size: 1/4 male flare x 1/4 female flare DIM.: L56mm	POA

Connecting Stop Valve

Item No.	Description	Trade Price (Ex. GST)
TA220JB-3	Connecting port size: 5/16 female flare with stop valve (with hose core depressor) x 5/16 male flare DIM.: L47mm	POA

Measurement

Hygrometer

Item No.	Description	Trade Price (Ex. GST)
TA411PC	Hygrometer with a data logger Inspection and proofreading certificate available (extra charge)	POA

DigitalThermometer (Complete Kit)

Item No.		Description	Trade Price (Ex. GST)
TA410BX		Contents: Thermometer, Extension compensating leadwire, Surface sensor, Air sensor with extension rod, Carryingcase	POA
TA410AX		Contents: Thermometer, Extension compensating leadwire, Surface sensor, Air sensor, Carryingcase	POA

Thermometer Probe Attachment

Item No.		Description	Trade Price (Ex. GST)
TA410-3		Measurement range: -50~+200°C	POA

DigitalThermometer Recorder (2 Probes)

Item No.		Description	Trade Price (Ex. GST)
TA410EA		Measurement range: -200~+1370°C (K type), -200~+760°C (J type) Precision: ±0.1%+0.8°C Resolution: 0.1°C Operating environment: -10~+50°C, 0~80%RH Sampling data: 32,000	POA

DigitalThermometer With Solar Panel

Item No.		Description	Trade Price (Ex. GST)
TA408GA		Measurement range: -50~+150°C Resolution: 0.1°C (-19.9~+150.0°C), 1°C (-50~-20°C) Precision: ±1.5°C (-19.9~+150.0°C), ±2.5°C (-50~-20°C)	POA

Data Logger Of Humidity/Temperature

Item No.		Description	Trade Price (Ex. GST)
TA413A		Measurement range: Main unit (-30~+60°C) Removable sensor (-40~+85°C) Operating environment: -30~+60°C Precision: ±1°C (-30~+60°C), ±1.5°C (OTHER) Resolution: 0.1°C	POA

Electronic air velocity meter

Item No.		Description	Trade Price (Ex. GST)
TA411DA		Dumbbell-shaped sensor Sensing area: 360-degreearound (horizontal), 90-degree (vertical) Sensitive velocity: Over zephyr (0.06m/s)	POA

Others

Portable Lifter

Item No.		Description	Trade Price (Ex. GST)
CM439		Max. platform height: 4.3m Rated capacity: 130kg Net weight: 26kg (lifter) & 5kg (tray) Operation: 240V trigger control, cordless drill or crank handle	POA
TA801A		Max. platform height: 3.5m Rated capacity: 100kg Net weight: 21kg Operation: compressed air	POA

Energy Saving Spray for Windows

Item No.		Description	Trade Price (Ex. GST)
TA999GC-1		Heat insulation and condensate prevention 400ml	POA

Energy Saving Glass Coating

Item No.		Description	Trade Price (Ex. GST)
TA999GC-2		Heat insulation and condensate prevention 5.0Litre	POA

High-Spec Fin Trainer

Item No.		Description	Trade Price (Ex. GST)
TA505R		Size (thread per inch): 8, 9, 10, 12, 14 & 15	POA

Suction Cleaner for Drain Hose

Item No.		Description	Trade Price (Ex. GST)
TA918SX		Hose inner diameter: 14, 16	POA

Airwing

Item No.		Description	Trade Price (Ex. GST)
2265586		Discharge flap for airflow redirection	POA

Silver Ion

Item No.		Description	Trade Price (Ex. GST)
1985421		Antibacterial case assy	POA

D-Checker

Item No.		Description	Trade Price (Ex. GST)
BTSC KIT		D-Checker wireless monitoring adaptor	POA

Bevelled Edge Diffusers

All data is based on a ceiling height of 2.7m and at Isothermal Conditions. Tabulated throw values [Lt] are with an unobstructed flush ceiling and to a point where the air velocity has reduced to 0.5m/s on the short throw and 0.25m/s on the longer throw.

For Diffusers installed with Plenum Boxes the following values need to be added to that of the required diffuser	Spigot Velocity [m/s]	1.0	1.5	2.0	2.5	3.0	3.5	4.0	4.5
	Pressure Drop [Pa]	2	4	6	8	10	14	18	24
	Noise Levels [NC]	2	2	2	3	4	6	8	10

Removable Core Linear Slot Diffuser

Suitable for both cooling and heating applications with normal temperature differentials to 12°C. Data is calculated from 1000mm long diffuser modules, installed in a 2.7m high flush ceiling and at isothermal conditions. Data given is based on air being diffused in one direction only. Diffusers can be set to diffuse in opposite directions, thus for 2-way air pattern divide the total air volume proportionally.

Round Diffusers

Data is based on Isothermal conditions with a room height of 2.7m with the diffuser mounted flush in an unobstructed ceiling. Throws are given at a terminal velocity of 0.25m/s. Data is tabulated with the centre cone in two test positions 20% and 100% open respectively. Noise Ratings are based on a room absorption level of 10db.

Removable Core Bar Grille

Throws are based at Isothermal conditions to a terminal velocity of 0.5m/s and 0.25m/s respectively for a 1 metre active length with a room height of 2.7m. The diffuser is mounted flush in a side wall no further than 400mm down from the ceiling. Throw values are for throws in one direction only. Noise Ratings are based on a room absorption level of 10db.

Removable Core Double Deflection Register

Throw values are based on Registers installed in the sidewall not more than 600mm below a flat ceiling. Terminal velocities are based on 0.25m/s. NC levels and pressure drops are given for registers with all blades set at a 0° pitch and with no dampers attached. For blades set at a 40° pitch a 50% increase in pressure can be applied. For other performance or selection details please contact the supplier.

This Catalogue Price List becomes effective 1st July 2021 and supersedes all previous price list specials etc. from Daikin Australia Pty Ltd. ALL products and services will be invoiced at a GST rate of 10%.

Prices and Availability

The prices, products and specifications in this price list are subject to change without notice. Your Account Manager will advise any product information updates. Inclusion in this price list indicates that the systems may be offered for sale in Australia and New Zealand, however does not guarantee availability for immediate delivery.

Conditions of Sale

Daikin Australia Pty Ltd shall supply equipment to the customer in accordance with the Daikin Australia Pty Ltd Conditions of Sale. A copy of this document (ref DACS0011) is enclosed in this price list.

Cancellation of orders

Daikin Australia Pty Ltd reserves the right to charge a fee for the cancellation of an order.

Returns

Goods returned will not be accepted for credit unless:

- a) A claim is made within 7 days of delivery.
- b) The customer obtains a Returns Authorisation Number (RA/RE) from Daikin Australia Pty Ltd.
- c) The customer supplies the invoice / delivery docket number.
- d) The items are received in original condition and packaging as at time of dispatch.

Goods returned for credit may incur a 10% restocking fee.

Non-Standard items made to customer's specification are not refundable except where the items are faulty or not to specification.

Deliveries

Delivery fee is dependent on destination and transport requirements. Please contact your Sales Office for details. GST will apply to all deliveries.

- Orders must be placed by 1pm (Sydney) or 2pm (other Warehouses) for next working day delivery to the associated metropolitan area.
- Goods will not be delivered to site without a signature from an authorised person.
- Any additional costs for transport waiting time or “after hours” deliveries will be at the customer's expense.

Warranty

The goods shall be warranted in accordance with clause 11 of the Daikin Australia Pty Ltd Conditions of Sale and the Daikin Australia Pty Ltd Warranty documentation supplied with the Equipment.

CONDITIONS OF SALE

Daikin Australia Pty Limited

1 Definitions

“Account Application Form” means an application for credit on the form provided to the Customer by Daikin Australia.

“Agreement” means the agreement for supply of Equipment between Daikin Australia and the Customer consisting of these “Conditions of Sale”, the Purchase Order for the Equipment accepted by Daikin Australia, the Confirmation of Order and any variation or additional term agreed in accordance with clause 2.1.

“Daikin Australia” means Daikin Australia Pty Limited, its agents and assigns.

“Charges” includes all monies payable by the Customer to Daikin Australia in relation to the supply of Equipment.

“Confirmation of Order” means a written document issued by Daikin Australia which sets out a description of the Equipment, the Charges and other necessary terms and which may include details of the Customer's offer to purchase the Equipment.

“Customer” means the party identified on the Confirmation of Order as “Customer” and includes the Customer's agents and permitted assigns.

“Equipment” means the goods to be supplied under the Agreement and includes parts and supplies which may subsequently be supplied under any warranty given in relation to the Equipment.

GST has the meaning given by the A New Tax System (Goods and Services Tax) Act 1999 (Cth).

“Insolvency Event,” in respect of a party, is when that party becomes bankrupt or insolvent or becomes subject to the appointment of an administrator, receiver, receiver and manager, liquidator, statutory manager or any other person carrying out an equivalent function, or a mortgagee goes into possession of the whole or part of the party's assets, income or business.

“Manufacturer” means the manufacturer of the Equipment or any parts thereof, its agents and assigns.

“Purchase Order” means the document or communication setting out the Customer's offer to purchase Equipment.

“Quote” means a quote provided by Daikin Australia to the Customer for purchase of the Equipment.

“Services” means installation, repair and/or maintenance work carried out by Daikin Australia.

“Trade Customer” means a Customer purchasing Equipment:

- for resupply; or
- not of a type ordinarily acquired for personal, domestic or household use or consumption.

“Warranty Documentation” means the printed card containing the terms of the Daikin Australia Warranty which is supplied with the Equipment or is offered generally by Daikin Australia to purchasers of like Equipment at the date of the Agreement details of which are available on the website www.daikin.com.au.

Words importing the singular number shall include the plural and vice versa.

Working day means any week day that is not a public holiday.

The use of “includes” or similar means “including but not limited to”.

2 Order of precedence and variation

- These Conditions of Sale are varied only where such variation is in writing and signed by the Customer and a State Manager or Senior Manager of Daikin Australia and is expressed to be a variation of these Conditions of Sale. If there is any inconsistency between the terms of the Agreement, the following order of precedence will apply to the extent of the inconsistency with the item listed earlier prevailing over a later listed item: (a) any variation agreed in accordance with this clause 2.1, (b) Confirmation of Order, (c) these Conditions of Sale; then (d) the Purchase Order for the Equipment accepted by Daikin Australia.

3 Quotations and Entry into Agreement

- Any brochure, catalogue, price list, internet page, Quote or other communication published or forwarded by Daikin Australia to the Customer, whether in writing or not, shall only constitute an invitation by Daikin Australia to the Customer to do business that Daikin Australia may withdraw or alter at any time.
- Any Purchase Order submitted by the Customer with Daikin Australia constitutes an offer by the Customer to purchase Equipment from Daikin Australia. Notwithstanding any prior communication between Daikin Australia and the Customer, there shall be no obligation by Daikin Australia to accept an offer to purchase Equipment made by a Customer. The Customer's order may be accepted by issue to the Customer of a Confirmation of Order.

4 Cancellation

Without limiting the Customer's rights, protections and remedies referred to in clause 10, following Daikin Australia issuing a Confirmation of Order, no purported cancellation of that order by the Customer will be effective unless and until accepted by Daikin Australia in writing.

5 Return of Equipment

- Without limiting the Customer's rights, protections and remedies referred to in clause 10, the following terms apply to returns:
 - If any Equipment is delivered to the Customer which does not comply with the Customer's order, the Equipment shall be deemed to have been accepted by the Customer unless notice of non-compliance is received by Daikin Australia within seven (7) days of delivery.

- The Customer must cooperate in allowing Daikin Australia to undertake any investigation into alleged non-compliant Equipment.
- All returns of Equipment by the Customer must be made in accordance with Daikin Australia's procedures for returns and refunds, published from time to time.

6 Functionality and Performance

- All information, specifications or other data provided by Daikin Australia in relation to the Equipment represent approximations only and should not be used for construction purposes. All drawings and specifications shall remain the sole property of Daikin Australia and must not be copied or divulged to any third party without the prior written consent of Daikin Australia.
- The Equipment may contain small deviations or slight variations from the information, specifications or data referred to in clause 6.1. Where such deviations or variations do not substantially affect the functionality of the Equipment, the Customer is not entitled to reject the Equipment or make any claim due to such deviation or variation.
- Any information provided by Daikin Australia in relation to the performance of Equipment represents only a guide as to the performance of the Equipment under standard industry operating conditions. Factors which may affect performance of the Equipment may be obtained from Daikin Australia on request.
- Daikin Australia may make reasonable modifications of any kind to the Equipment prior to its delivery. If that occurs, Daikin Australia will notify the Customer prior to delivery of any modifications. If such modifications are unacceptable to the Customer, the Customer may cancel the Purchase Order by providing written notice.
- Daikin Australia does not warrant that the Equipment supplied by Daikin Australia will, as installed, comply with the Building Code of Australia or any other similar standard or code. The Customer is solely responsible for ensuring that the Equipment, as installed, complies with any relevant code or standard.

7 Charges

- Clause 7.2 applies to Customers other than Trade Customers who are approved for credit facilities. Clauses 7.3 and 7.4 apply to Trade Customers who are approved for credit facilities.
- Unless otherwise agreed in writing, the Customer must pay to Daikin Australia:
 - the deposit amount identified in the Confirmation of Order within 7 days of the Confirmation of Order; and
 - the balance of the amount payable for the Equipment on delivery.
- Credit facilities are only available to Trade Customers if the Trade Customer has completed an Account Application Form and the Account Application Form has been approved by Daikin Australia in writing.
- The provision of a credit account to the Trade Customer may be withdrawn by Daikin Australia at any time.
- Where an Account Application Form:
 - has not been applied for or approved by Daikin Australia, payment for Goods must be made as at the date that Daikin Australia accepts the Order; or
 - has been approved by Daikin Australia, payment for Goods supplied under the credit facilities must be paid to and received by Daikin Australia within 30 days from the end of the month in which all the Goods are invoiced or where the Goods are delivered in part, then payment for those received Goods will be paid within 30 days from the end of the month in which the received Goods are delivered.
- The total purchase price, unless otherwise stated in the Order, includes GST (unless stated otherwise), delivery charges the nominated delivery address and packaging but does not include any lifting or craneage costs, assembly costs, installation costs, costs and charges of third party suppliers, all of which will be paid by the Customer.
- Unless otherwise agreed, if the Customer does not pay an amount by the due date for payment, or a payment made by the Customer fails to be honoured, without prejudice to any other rights which it may have against the Customer, the Customer shall be liable to pay to Daikin Australia interest thereon at the rate of 3% above the indicator lending rate from time to time and charged by Daikin Australia's bankers as nominated by Daikin Australia at the relevant time. Interest payable hereunder shall be compounded monthly and calculated from the due date for payment to the date upon which payment is actually made.
- The Customer must not set off any money owing or alleged to be owing by Daikin Australia against money due by the Customer to Daikin Australia.
- Without prejudice to any other rights which Daikin Australia may have against the Customer, if the Customer fails to pay any amount by the due date for payment or a payment made by the Customer fails to be honoured, Daikin Australia shall be entitled to:
 - withhold or delay delivery of any remaining Equipment; or
 - terminate the Agreement by written notice to the Customer.

8 Property in Equipment Purchased

- No legal or equitable title to the Equipment shall pass to the Customer until payment in full has been made by the Customer not only of all Charges for all Equipment the subject of the Agreement (unless waived in writing by Daikin Australia) but also until payment has been made of all other sums due to Daikin Australia by the Customer on any account whatsoever. Until all such sums due to Daikin Australia by the Customer have been paid in full, Daikin Australia has a security interest in all Equipment and their proceeds.
- If the Equipment is attached, fixed or incorporated into any property of the Customer, title in the Equipment will remain with Daikin Australia until the Customer has made

payment for all Equipment, and where that Equipment is mixed with other property so as to be part of or a constituent of any new equipment, title to that new equipment shall be deemed to be assigned to Daikin Australia as security for the full satisfaction by the Customer of the full amount owing between Daikin Australia and the Customer.

- Subject to clause 8.7, until the legal and equitable title to the Equipment passes to the Customer, the Customer:
 - shall hold the Equipment as bailee of Daikin Australia returnable at will and without prior demand by Daikin Australia;
 - shall, upon demand by Daikin Australia, immediately deliver up the Equipment to Daikin Australia; and
 - hereby authorises Daikin Australia to enter upon the premises upon which the Equipment are stored for the purpose of taking possession thereof.
- Daikin Australia shall not be liable for, and the Customer expressly releases Daikin Australia from any liability for, any damage, costs or losses arising from or in connection with the recovery of possession of the Equipment by Daikin Australia.
- The Customer agrees that ss. 95, 96, 117, 118, 120, 121, 125, 130, 132(3)(d), 132(4), 135, 142 and 143 (Relevant Sections) of the Personal Property Securities Act 2009 (PPSA) do not apply to the enforcement by Daikin Australia of any security interest created or provided for by the Agreement to which the PPSA applies. The Customer waives any right it may have under the Relevant Sections of the PPSA on such enforcement.
- The Customer acknowledges receipt of a copy of this Agreement and waives any right it may have to receive from Daikin Australia a copy of any financing statement, financing change statement or verification statement that is registered, issued or received at any time in relation to this Agreement.
- Until title of the Equipment passes to the Customer, the Customer will not purport to assign any right or interest therein to any other person other than by sale of the Equipment in the usual course of business (upon which title will pass to the purchaser). The proceeds of any such sales will be the property of Daikin Australia and must be held by the Customer on a fiduciary basis in a separate bank account for the benefit of Daikin Australia, and will be payable to Daikin Australia immediately without demand.
- The Customer shall promptly do whatever Daikin Australia reasonably requests of the Customer to:
 - ensure Daikin Australia's rights in relation to the Equipment are enforceable, perfected and effective; and
 - enable Daikin Australia to apply for any registration, or give any notification, in connection with the Agreement to preserve Daikin Australia's rights in relation to the Equipment.
- The Customer must pay all of Daikin Australia's costs and expenses in relation to compliance with any demand under the PPSA, or in relation to any application for, or the obtaining of, any Court order to maintain any registration in respect of any security interest created under the Agreement and the serving of such Court order on the Customer or the Registrar of Personal Property Securities.
- The Customer must supply all details requested by Daikin Australia to enable Daikin Australia to register a financing statement in respect of the Equipment, including providing notice to Daikin Australia if those details change.

9 Delivery and Risk

- Delivery dates represent only an estimation of the date of delivery of the Equipment and are not binding on Daikin Australia.
- If Daikin Australia determines that it is or may be unable to deliver the Equipment within a reasonable time (which shall not be less than seven (7) working days) of the estimated date of delivery, Daikin Australia or the Customer may by written notice terminate the Agreement. In the event of termination under this clause the Customer shall have no claim against Daikin Australia for any damage, loss or expense whatsoever other than for the refund of any amount paid for the Equipment.
- Daikin Australia reserves the right to deliver the Equipment by instalments and to invoice the Customer for each instalment of Equipment delivered where, in the opinion of Daikin Australia, it is reasonable to do so. If Daikin Australia has agreed to make delivery and the Customer is unwilling or unable to accept delivery, Daikin Australia may store the Equipment and charge the Customer for all reasonable costs and expenses associated with such storage and delayed delivery, including, if applicable, any additional financing costs incurred by Daikin Australia by reason of a fixed price having been agreed for the Equipment with the Customer or otherwise.
- Where delivery to the Customer's premises is delayed by reason of:
 - the Customer's fault or unpreparedness; or
 - other reasons outside the control of Daikin Australia, and the time for payment by Daikin Australia to the Manufacturer is linked to the anticipated time for such delivery, then Daikin Australia in its discretion may at any time after such anticipated time deem delivery to have occurred for the purposes of payment from the Customer in accordance with the Agreement.
- If Daikin Australia is commissioning the Equipment, Daikin Australia will certify to the Customer when the commissioning is completed successfully.
- If a party other than Daikin Australia is commissioning the Equipment, the Customer will be taken to have accepted the Equipment once that party has certified that the commissioning has been completed successfully.
- When certified, the Customer will be taken to have accepted the Equipment. For the avoidance of doubt nothing in this clause alters the obligation of the Customer to make payment to Daikin Australia in accordance with the Agreement.

10 No exclusion of consumer protections

- The Customer may be entitled to certain non excludable rights, protections and remedies under law including under the Australian Consumer Law contained in the Competition and Consumer Act 2010 (Cth). Nothing in the Agreement is intended to restrict the effect of any rights, protections or remedies imposed by law which

cannot be excluded, restricted or modified. The non excludable rights, protections and remedies under law available to the Customer may vary depending on whether the Customer is a Trade Customer and whether the Trade Customer is purchasing Equipment for resupply.

11 Warranty

- in addition to the rights, protections and remedies referred to under clause 10, the Customer is entitled to the warranties that are described and referred to in the Warranty Documentation (subject to the exclusions and limitations).

12 Limitation of Liability

- If the Equipment being supplied is not of a type ordinarily acquired for personal, domestic or household use or consumption, to the extent permitted by law, Daikin Australia limits its liability for failure to comply with statutory guarantees applying under the Australian Consumer Law at Daikin Australia's option:
 - the replacement of the Equipment or the supply of equivalent Equipment;
 - the repair of the Equipment;
 - the payment of the cost of replacing the Equipment or of acquiring equivalent Equipment; or
 - the payment of the cost of having the Equipment repaired.

13 Termination

- In addition to any other right of termination in the Agreement, either party (“terminating party”) may terminate the Agreement upon the occurrence of any of the following events:
 - failure by the other party to perform any obligation of the Agreement where such failure is not rectified within thirty (30) days of notice from the terminating party requesting rectification;
 - an Insolvency Event occurs in respect of the other party; or
 - any event occurs outside the reasonable control of Daikin Australia which in Daikin Australia's estimate makes it impracticable or impossible for Daikin Australia to fulfil its obligations under the Agreement.
 - immediately upon Daikin Australia becoming aware of a breach by the Customer of clause 15.1 The Customer breaches clause 15.1.

14 Force Majeure

- Subject to clause 14.2, neither party will be liable for any loss or damage suffered by the other party due to any delay or any breach or default under the Agreement in circumstances to the extent that such delay, breach or default results from causes beyond the party's reasonable control including but not limited to any breach or default under the Agreement by the other party, any change in laws, regulations, orders, acts, instructions or priority requests of governments, acts of God, fires, floods, weather, strikes, lockouts, factory shutdown or alterations, embargoes, wars, riots, delay or shortage in transportation or inability to obtain labour, manufacturing facilities, electricity, oil or other materials from Daikin Australia's or the Manufacturer's usual sources.
- This clause 14 does not apply to any obligation of the Customer to pay any amount under the Agreement.
- Any delay resulting from such cause shall immediately extend the date for the performance of any impacted obligation under the Agreement by the period of delay.
- If performance under the Agreement is delayed for more than 60 consecutive working days as a result of circumstances described in clause 14.1 above, either party may terminate the Agreement.

15 Miscellaneous

- If the Customer resells the Goods, it shall not, in connection with their resale, pay or offer to pay, money or anything of value to any government official, entity or organization, any political party, any candidate for public office, or their employees or relatives, for the purpose of influencing purchasing decisions or for any other improper purpose.
- Any indulgence, latitude or extension of time which Daikin Australia may show towards the Customer in relation to any of the provisions of the Agreement or any matter or thing relating thereto or arising therefrom shall not in any way prejudice or interfere with Daikin Australia's rights under the Agreement and shall not be claimed to constitute a waiver thereof.
- Without limiting the Customer's rights, protections and remedies referred to in clause 10, the Customer acknowledges that no oral terms or representations form part of the Agreement unless they have been reduced to writing prior to entering into the Agreement,.
- Neither party will assign their rights or obligations under the Agreement without the other party's prior written consent.
- Any notice to be given to a party shall be in writing and shall be sent by post, facsimile or by email to the address of that party as shown in the Purchase Order or Confirmation of Order or as subsequently notified by that party to the party giving the notice and shall be deemed to have been given at the time it would have been received in the normal course of post if forwarded by post and if otherwise given at the time it was actually received.
- The Agreement shall be governed by the laws of New South Wales and the parties agree to submit to the jurisdiction of the Courts of that State.
